# CARBON CHRONICLE

Job Printing of  
Every Kind

Vol. 5, No. 6

Carbon, Alberta, Thursday, March 10th 1927

\$2.00 a Year

Here We are at the Old Stand  
After the Long Winter !!

We have many new improvements to offer in  
this year's cars—in particular the  
**HOLLEY VAPORISER**

The Fordson Tractor is better than ever.

We have a good line of used cars, the  
prices on which have been re-  
duced to a minimum so that we  
can make room for our new cars,  
which we hope to be able to  
show soon.

CALL AND RENEW ACQUAINTANCE WITH  
OUR MANAGER, MR. STOUT.

He will be glad to give any information necessary

**McCULLOCH'S LIMITED**

DEALERS

CARBON, -:- ALBERTA

## SPRING GOODS

A wonderful variety of the season's  
latest Patterns and materials in  
yard goods will be here shortly.

Also new models in Ladies' Dress-  
es for spring wear.

WE GIVE YOU QUALITY AT RIGHT PRICES

**J. R. E. COBURN**

GENERAL MERCHANT, CARBON

EVERY THURSDAY EVENING FROM CALGARY AT FOLLOW-  
ING TIMES, USING STATIONS ALTERNATE WEEKS:

Calgary Herald Radio Station, C.F.A.C.  
9.15 to 9.30 p.m. immediately preceding  
C.N.R. Program.

W. W. Grant Co., Radio C.F.C.N., 8.45  
to 9.00 p.m. following studio program.

EVERY MONDAY EVENING FROM EDMONTON:

Edmonton Journal Radio Station C.J.  
C.A. from 8.30 to 8.45 p.m., preceding  
University of Alberta program.

THE FIRST RADIO BROADCAST BY THE POOL  
WILL BE ON THURSDAY MARCH 10, FROM  
THE CALGARY HERALD RADIO STATION.

## LITTLE ITEMS OF LOCAL INTEREST

Dick Gimbel was a visitor to  
Calgary over the week end.

W. Hiltz is having an auction  
sale at his farm, 3 miles east of  
Carbon, on Monday, March 14.

—Brood Sows For Sale. Bred and  
in good shape, due in latter part  
of April. Apply to E. Spry, 9 1/2  
miles north of Carbon.

The weather during the past  
week has been quite mild and the  
snow on the hills and in the valley  
is quickly disappearing. It will only  
be a matter of a couple of weeks  
or so before the local "pill chasers"  
will be shining up their clubs so as  
to be ready for their first game of  
the season.

FOR SALE: Good Seed Oats.  
Threshed before rains. Strong ger-  
mination test. 80c per bu. Also  
Buff Orpington Roosters from bred  
to lay strain, \$1.50 each. James  
Clayton, Box 181, Carbon. 3tp

W. D. Braden is holding an auction  
sale on Tuesday, March 15.

Work has already been commenc-  
ed on the repairing of the dam. It  
was decided at the meeting last  
Friday night, to fill in below the  
dam with rocks and build an apron  
to shed the water.

—FOR SALE— 3 pure bred Barr-  
ed Rock Roosters \$5.00 each.—  
Ingraham Hart. 2t

Mrs. King and daughter Mar-  
garet, who have been visiting with  
Mrs. King's daughter, Mrs. Mc-  
Kelvey, left Thursday for their  
home in British Columbia.

The Ladies' Aid of the Union  
church will hold a tea and sale of  
home cooking in the Nash Ice  
Cream Parlor on Saturday after-  
noon, March 12.

Geo. Hamston, of Calgary, has  
accepted the position as butcher in  
the Farmers' Exchange store.

Sells and Leitch are dissolving  
partnership on March 15. All out-  
standing accounts must be paid to  
R. E. Sells before this date, other-  
wise legal action will be taken to  
collect same.

A quiet wedding was solemnized  
at the home of Mr. and Mrs. J. B.  
Currie on Monday evening, when  
Miss Edna Copeland of Carbon was  
united in marriage to Mr. Otto  
Martin, also of Carbon.

J. Bramley returned last Thurs-  
day from a trip to the Peace River  
country and seemed to be very  
disappointed in the district.

J. O'Rourke left on Sunday for  
the East, where he will visit his  
Father, who is seriously ill.

—Large office desk for sale. Apply  
Mrs. Wm. Reid.

## Country News

Mr. Fred Schell and Mr. Got-  
lieb E. Schell made a trip to Cal-  
gary on business, Monday morning  
and returned that evening.

Mr. Fred Harsch of Calgary,  
was visiting with his children over  
the week end.

Mr. J. C. Ohlhauser was visiting  
with his parents in Calgary, re-  
turning Saturday as far as Grainger.  
There Mrs. Ohlhauser and  
children joined him and from there  
they went to Trochu to visit Mrs.  
Ohlhauser's parents.

## PUBLIC SCHOOL REPORT FOR MONTH OF FEBRUARY

### GRADE V

S. Nash, C. Birch, S. Atkinson,  
P. Greenan, G. English, M. Oli-  
phant, B. Peters, M. Wiertz, P.  
Dodyk, A. Wise, S. Poxon, H.  
Poxon.

### GRADE IV

R. Black, F. Code, W. Skerry,  
B. Johnson, V. Pimm, H. Trumb-  
ley, M. Livingstone, M. Mortimer,  
H. Hunt, H. Watkins, G. Mc-  
Gregor, A. Jewell.

### GRADE III

W. Harvey, C. Black, L. Dol-  
phin, B. Oliphant, D. Kaiser.

Promoted from Grade II to III

C. Pimm, W. Fox, M. Birch,  
L. McEntire, F. Greenan, R. Wise,  
C. Jewell, J. Black.

### GRADE I

E. Wiertz, L. Gervis, F. Mac-  
Donald, C. Moore, H. Richter, T.  
Purdy, S. Dodyk, R. Mancel, J.  
Hunt.

### GRADE I, Sr.

G. Williams, G. Jealous, A.  
Skerry, B. Black, L. McEntire, W.  
Dixon, S. Malton, B. McQuade,  
B. Moore.

### GRADE I, Jr.

F. Brown, R. LeMay, L. Hall,  
L. Trepanier, M. Shytha (absent)

## Gamble Items

Ralph Purcell is one of the latest  
radio fans, having purchased a 4-  
tube set from Mr. Congo. He gets  
Honolulu on it and sits up all the  
night finding what else is on the  
air.

Mrs. Pete Johnson left Wednes-  
day to visit her people near Han-  
na.

Anyone wishing to compete in  
a milk drinking contest apply to L.  
B. Hart.

E. Spry shipped half a car of  
pigs this week.

Mr. McKay, the Mt. Vernon  
School teacher left suddenly on  
Feb. 26. School was closed for a  
week, when they engaged Mr.  
Dinmore from Edmonton.

## Swalwell

Following up their endeavor to  
lift the debt on the building fund  
of the church, the Ladies' Aid are  
putting on a concert, to be follow-  
ed by a dance, on Friday, March  
18, to commence at 8 p.m. We  
understand that no efforts are be-  
ing spared to make this one of  
outstanding merit.

The U.F.A. held a big meeting  
last Saturday in the Rest Room.  
During the afternoon Mrs. Prime  
gave a practical cooking demon-  
stration, which was very much ap-  
preciated by all the members pres-  
ent.

Mr. A. Caston paid a business  
trip to Calgary during the week.

Mr. E. S. Young has returned  
from Langdon after trailing the  
affects of W. Braden by road, and  
reports a good trip, which remind-  
ed him of the old time travel.

Two hundred and ninety-four ves-  
sels of 55,295 gross tons and 42,923  
net tons, were built in Canada and  
registered during the year 1925,  
according to the Department of  
Marine and Fisheries. Wood vessels  
built consisted of 140 sailing, 9  
steam and 132 motor, and metal ves-  
sels of 5 sailing and 8 steam. Of  
the total tonnage 21,448 was attri-  
butable to British Columbia 11,550

## COATES-MAXWELL

A quiet but pretty wedding was  
solemnized in the Knox United  
Church, Calgary, on Tuesday  
March 1 at 5 o'clock. Miss  
Irene, daughter of Mr. and Mrs.  
E. Maxwell, Carbon, became the  
bride of Mr. Leon A. Coates, also  
of Carbon. The Rev. George A.  
Dixon officiated.

The bride looked charming in a  
gown of white broadened silk and  
her veil was caught with a wreath  
of orange blossoms. She carried a  
bouquet of tea roses and fern. Miss  
Lucy Ruff, the bridesmaid, looked  
lovely in a gown of pink georgette;  
the groom was supported by his  
brother Lawrence.

Mr. Mrs. Coates will make their  
home at Carbon.

On Thursday evening the bride's  
parents gave a dance in honor of  
the newly married couple, in the  
Farmer's Exchange Hall, to which  
all friends and acquaintances in the  
Carbon district were invited.

At midnight a delightful supper  
was served, and at which time each  
of the guests received a piece of the  
magnificent wedding cake.

At this hour a flashlight photo of  
the bride and groom, surrounded by  
their relatives, was taken. Mr. and  
Mrs. Coates were the recipients of  
many beautiful and useful wedding  
gifts.

## Grainger Notes

Mr. Cochlin is visiting his son J.  
W. Cochlin.

Mr. and Mrs. MacMillan spent  
the week end in Calgary.

The Old Timers dance in Acme  
was a huge success, the crowd be-  
ing so large that it was hard to ac-  
commodate them.

Mr. MacMillan has applied for  
the station at Irricana and if he re-  
ceives it, the Grainger ball team  
will lose a good player as well as a  
good booster.

Herbert Hutton won the light  
weight championship of the provin-  
ce in Edmonton, when he gained  
the decisive fall over his opponent  
of the University of Alberta in 2 1/2  
minutes.

According to a recent statement  
of E. W. Beatty, Chairman and  
President of the Canadian Pacific  
Railway, the record of the railway's  
common stock as at June 30th, 1926,  
indicates that 52 1/2 per cent. is held  
in Great Britain, 19 1/2 per cent. in  
Canada and 19 per cent. in the  
United States.

All previous records have been  
broken by the salmon pack in Brit-  
ish Columbia for 1926. It is esti-  
mated that the total pack for this  
year, when all returns are in, will  
be, in round figures, 1,900,000 cases.  
The nearest approach to this was in  
1924, when slightly more than 1,700,-  
000 cases were put up.

Early in June next year, it is an-  
nounced, a regular airplane service  
between Chicoutimi, Montreal and  
Toronto will be inaugurated by the  
Canadian Transcontinental Airways  
Company—a corporation which has  
just received its letters patent. The  
airplanes or hydroplanes will make  
stops at Riviere du Loup, Quebec,  
Three Rivers, Montreal and Ottawa.

Nearly a ton of mistletoe wasted  
its sweetness on the Eveless air of  
the Canadian Pacific Express Com-  
pany's yards in Montreal at Christ-  
mas time. It arrived from France  
and England via the Canadian Pa-  
cific steamship "Montclair," and  
was boxed in twenty-two crates, of  
which twelve were destined for New  
York and the balance for distribu-

## Health Broken—Lost 66 lbs. Now Well, Won Back 82 lbs.

Ottawa merchant, formerly city officer, rundown by kidney trouble. Wasted from 201 to 135 lbs. Tanlac restored robust health; now weighs 217 lbs. and feels fine

Philip Sequin's grocery at 285 St. Patrick St., is well known in Ottawa. Mr. Sequin was formerly a police officer. When ill-health seized him he lost weight rapidly. "I had kidney trouble for 6 years," he tells, "and was given up as a hopeless case. Many times, from sheer weakness, I have fallen where I stood, and had to be helped to my feet."

"Pains racked my entire system, especially my back, which felt like splitting. Needless to say, I could neither eat nor sleep normally. Weak spells and nervousness would leave me trembling all over. I faded away from 201 to 135 lbs., and tried endless treatments and remedies in those 6 years, without result."

"I had begun to despair, and when a friend advised Tanlac I was skeptical. But one month's regular use of this wonderful medicine convinced me that I was on the road to health. I kept on taking Tanlac and to my delight and surprise it made me a new man in a surprisingly short time."

Now I weigh 217 lbs., eat and sleep like a healthy boy, and feel like a different man altogether.

If neglect or overwork are taking toll of your health, try Tanlac. It is nature's own tonic, made from roots, barks and herbs. Your druggist has it. Over 52 million bottles sold.

## It's All In The State Of Mind

If you think you are beaten, you are;  
If you think you dare not, you don't;  
If you think you'll lose, you won't;  
It's almost a "cineh" you won't;  
If you think you'll lose, you've lost;  
For out in the world you'll find  
Success begins with a fellow's will —  
It's all in the state of mind.

Full many a race is lost  
Ere even a race is run,  
And many a coward falls  
Ere even his work's begun.  
Think big, and your deeds will grow;  
Think small and you fall behind.  
Think that you can and you will;  
It's all in the state of mind.

If you think you are outclassed, you are;  
You've got to think high to rise;  
You've got to be sure of yourself before  
You can ever win a prize.  
Life's battles do not always go  
To the stronger or faster man;  
But sooner or later, the man who wins  
Is the fellow who thinks he can.

Throughout Western Canada people are now eagerly looking forward to the breakup of winter and are beginning to plan for the season's work which lies ahead. The farmer is giving thought to the crops he will sow, arranging to overhaul his machinery, looking into the matter of good, clean seed, and is becoming impatient for the frost to come out of the ground in order that he may begin turning over the furrows. The farm wife is beginning to think of her poultry and vegetable garden. In the cities and towns plans are being laid for building operations, civic officials are preparing programmes of improvements, men and women are studying seed catalogues and dreaming of their gardens to be. Everywhere, everybody is looking forward.

People, too, are asking themselves the question: "What will the year bring forth?" Generally, a feeling of optimism prevails. Perhaps never before in Canada's history has there been such unanimity among the heads of all banks, insurance companies, financial and industrial concerns, railway executives, and business men,—usually of the most cautious and conservative type,—in predicting that Canada is on the eve of remarkable, unprecedented development. There is a hopeful feeling everywhere.

It is believed that 1927 will be a year of opportunity, although nothing in the nature of a "boom" is expected or desired. Western people have surely learned the lesson that substantial, permanent progress can only rest on strong foundations; that to build on paper is to invite disaster. For this reason there is danger that some people will be timid in grasping opportunities which present themselves even though they are in a sound position to take full advantage of them. Their very timidity, their lack of confidence in themselves, or in their country, may be their own undoing.

The lines quoted at the opening of this article are, however, not directed only to the attention of those who are fearful of launching out on some enterprise this year, but to all the people of Western Canada at this time as they plan for the year's work ahead.

It is true today, as it has always been true, that the person who thinks he is beaten, is beaten. The beginning of success is the "will" to succeed; the determination never to acknowledge defeat. This, too, is our British birthright. Many and many a time in our Empire's history the outlook has been dark, defeat seemed inevitable, but our people would never admit it and fought on and on until victory was achieved and success crowned their efforts.

One of the factors in enabling George Young to swim Cataraqui channel and win the big prize offered was his confidence in himself. He was confronted with obstacles from the beginning of his journey from Toronto to California and all along the way, but he was convinced of his ability to win, and win he did. Courage and perseverance were his watchwords. He possessed the right state of mind.

Western Canadians, with their country of wonderful resources as an asset, can accomplish almost anything to which they make up their minds and to which they devote their energies with real determination to achieve. Amazing things have been accomplished in the past, but the present offers equally great opportunities and still greater things can be done and richer rewards won if our people are convinced they can do these things and make up their minds to do them.

The sunlight of happiness seldom falls upon a shady reputation. Many a man's peck of trouble comes in liquid form.

## Cuticura Loveliness A Priceless Heritage

For generations mothers have been using Cuticura Preparations for all toilet purposes, and have been teaching their daughters that daily use of them produces clear, smooth skin and healthy hair. They find the Soap pure and cleansing, the Ointment soothing and healing, should any irritations arise, and the Talcum an ideal toilet powder.

Sample Each Free by Mail. Address Canadian Import, "Redeemer Ltd., Montreal." Price, Soap 25¢, Ointment 25¢ and 50¢, Talcum 25¢. Cuticura Shaving Stick 25¢.

## Total Eclipse of the Sun

Unusual Phenomena to be Witnessed in England on June 29

English astronomers are preparing to view on June 29, the first total eclipse of the sun which has visited England in 203 years and the last one until 1999.

The belt of country in which the eclipse will be total is only 80 miles wide, running from the north of Wales in the west to Hartlepool on the North Sea in the east. So popular is the interest in the unusual event that several railroads will run special trains to various points in the belt.

The total eclipse begins over England at 5.25 a.m. Greenwich mean time, and is visible in its totality from 21.7 seconds in the west to 21.5 seconds in the east.

Astronomers here point out that with a total eclipse, such as will be seen this year, the corona is visible, which is not the case with partial eclipses.

Several parties of astronomers are planning expeditions to Norway, where the visibility will be better than in England. Three Greenwich astronomers will take two telescopes and two spectroscopes to a station in Yorkshire, and other parties will go to both the west and east coast.

## 2 Years' Backache Subdued by "Nerviline"

"Backache was the bane of my life, and for two years I was so lame as to be unfit for work," writes E. S. Sloane, from Georgetown. "While in Smith Bros' Drug Store, I heard of Nerviline being a wonderful pain destroyer, so I decided to try Nerviline. Thanks to Nerviline, my two-years' backache was rubbed away, and to-day I am perfectly well."

All those who suffer from weak, aching backs, those whose muscles are stiff, whose joints are swollen, let them try Nerviline—the liniment that never fails. 35¢ at all dealers.

## Broke News Gently

Trying to break it gently to his parents that he had flunked his spring semester examination, a student at Goteborg University telegraphed his family in Berlin as follows: "Passed exam with flying colors. Professors delighted, enthusiastic, want me to repeat it next July."

## He Recommends Them For All Kidney Complaints

So Says Mr. S. Lee of Dodd's Kidney Pills

Saskatchewan Man Says Dodd's Kidney Pills Have Never Failed Him.

Rama, Sask. (Special) — "I can recommend Dodd's Kidney Pills for all kidney complaints," writes Mr. S. Lee, a well known and respected resident of this place. "I have taken Dodd's Kidney Pills for several years for backache and pains in the kidneys and I have never known them to fail."

There are many symptoms which point directly to kidney disease and warn you of serious danger ahead. Backache, deposits in urine, headaches and aching limbs, harsh, dry and itching skin and loss of flesh and weight.

To their direct action on the kidneys is due the wonderful success of Dodd's Kidney Pills as a relief for diseases of the kidneys.

Dodd's Kidney Pills are no cure-all. They are just a kidney remedy that can be taken by old and young alike. Dodd's Kidney Pills are sold by all druggists or The Dodd's Medicine Co., Ltd., Toronto, 2, Ont.

## Want Free Port

Urge Free Port at Ocean Terminal of H. B. Road

The establishment of a free port at the ocean terminal of the Hudson's Bay Railway will be urged by some Progressive members of the House of Commons when the annual debate on the railway takes place. One member has expressed the conviction that if Port Nelson (or Port Churchill—if the terminal is finally established there) were made a free trade port, the cost of construction of Canada's railway to the Northern Seas could be wiped out in a few years and the financial success of the road assured.

The number of motor accidents will not decrease until automobiles have less horsepower and drivers have more horse sense.

Athletes use Minard's Liniment.

W. N. C. 1926

## If you come from England, Ireland or Scotland you are pretty sure to be a tea drinker and a good judge of "good tea".

On that account we particularly request that you try a package of Red Rose Tea. You will find it has the "old home" taste, as Red Rose Tea was originally put up by a famous London firm. And in later years in our Canadian plant the blending and packing has been under the supervision of one of the best trained men of the London tea rooms.

You will enjoy Red Rose. It is what you will call "good tea".

"Every package is guaranteed."

# RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

## Is Considered a Miracle

Body of Rumanian Priest Dead Two Centuries is Well Preserved

A glass casket to display the well preserved body of a priest dead two hundred years has been ordered by the peasants of the Cluc district, Rumania. They look upon the preservation of the body around which six wooden coffins have crumbled as a miracle. Doctors have tried to explain to the peasants why the body is in good condition, but they prefer to accept the theory of supernatural.

To pay for the expensive glass casket an admission fee is to be charged of those viewing the body.

**Stop the Cough.** — Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

## New Tomato Grows on Trees

Tomatoes growing on trees like dwarf apples were a novelty for visitors at the first exhibition this year by the Royal Horticultural Society, London. The trees are about four feet high and look like futuristic orange trees. Each tree bears some seventy little tomatoes, growing so closely together that they seem to form high cones. The tree tomato has a lighter color than the ordinary tomato and its taste is sweeter.

The most obstinate corns fail to resist Holloway's Corn Remover. Try it.

## Makes Money From Radio Set

An enterprising resident of Worcester, Mass., has equipped his radio set with eight loud speakers which he has installed in the homes of eight neighbors. He charges them each \$2 a month for the service.

Relieve Asthma with Minard's Liniment.

True love doesn't thrive well in a public garden.

One way to get rid of unpleasant people is to begin giving them advice.

## FELT VERY WEAK

Had No Ambition and Had to Rest Frequently

Mrs. Wm. J. Griffin, Tekamah, Manitoulin Island, Ont., is one of the many thousands of women who was run-down and bloodless, and who has found new health through Dr. Williams' Pink Pills. She says:—"For a number of years I felt very weak and had no ambition. I found it very difficult to do my housework and had to rest frequently. As time passed my condition grew decidedly worse, and my feet and legs were badly swollen. My husband told the doctor of my condition, and he gave me medicine. Then my baby came and the doctor attended me. He said I had scarcely any blood in my body—that it had turned to water. I continued taking his medicine for a time, but did not feel that it was doing me any good. Then I started to take Dr. Williams' Pink Pills. In a short while I felt better, and after taking the pills for a couple of months I felt like a new person. Where my work used to be a drag upon my strength I enjoy doing it now, and I will always recommend Dr. Williams' Pink Pills to weak people."

If you will send your name and address to The Dr. Williams' Medicine Co., they will mail you a little book called "Building Up the Blood," which contains many health hints. You can get the pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Too many men wait until they have been done to a turn before turning over a new leaf.

**Persistent Asthma.** A most distressing characteristic of this debilitating disease, is the persistence with which recurring attacks come to sap away strength and leave the sufferer in a state of almost continual exhaustion. No wiser precaution can be taken than that of keeping at hand a supply of Dr. J. D. Kellogg's Asthma Remedy, famous as the most potent remedy for eradicating the disease from the tender air passages.

Men are so contrary that if their wives wanted them to stay out late they probably wouldn't do it.

## Children Cry for

# Fletcher's CASTORIA

MOTHER:—Fletcher's

Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *W. H. Fletcher* Proven directions on each package. Physicians everywhere recommend it.

## Importance Of Maintaining Moisture In The Indoor Air During The Winter Months

The extreme importance of maintaining sufficient moisture in the indoor air during the heating season has never been fully realized in Canada. Of course, everyone knows in a general way, that the atmosphere of our houses is much too dry in the winter months, but very few realize the extent to which the condition affects our health and comfort, not to mention the increased consumption of fuel and destruction to house furnishings.

Insulated houses without artificial means of humidification, are particularly liable to develop unhealthy living conditions in winter.

The human nose performs all the duties of a well-ordered air conditioning plant in a threefold way, acting as a filter for dust and bacteria, heating the air which enters the lungs and humidifying it to 40 per cent. relative humidity. If hot, very dry air is breathed continuously, the nose is called on to furnish large amounts of moisture, resulting in the drying up of mucous membranes and nasal secretions and the subsequent irritation and swelling of the tender membranes of the throat and nose. This frequently causes headaches and dizziness and prepares a receptive field for disease germs.

The New York State Commission, in their investigation of ventilation conditions in the schools of the State, found that they were able to reduce the temperature in the school rooms from 78 degrees Fahrenheit to 68 degrees by the proper humidification of the air, with perfect maintenance of comfort. That is, the effective temperature was lowered ten degrees. They also determined that the children's inclination to work was increased 35 per cent. by the cooler atmosphere. In an industrial investigation this commission proved that excessive heat promotes premature fatigue. Subjects under test, working on piece-work, receiving a bonus for quantity of work in addition to flat rate, did 13 per cent. more work at 68 degrees than at 75 degrees.

The excessively high temperature required for comfort in dry air, wastes considerable heat. Temperatures of 75 degrees to 80 degrees are common in houses with low humidity, whereas only 68 degrees Fahrenheit is necessary for comfort in a properly moistened atmosphere.

In houses, particularly those not insulated, the raising of the temperature from 70 degrees Fahrenheit to 80 degrees Fahrenheit is usually difficult and requires forcing of fires with a subsequent loss of efficiency in the burning of coal. Although the evaporation of water to produce proper humidification requires some heat, a considerable over-all fuel economy is effected, owing to the lower temperature required for comfort.

Considerable controversy has arisen between various authorities on humidity conditions as to the actual amount of fuel saved in this way. Some investigators contend that very little saving is accomplished, while others maintain that economies amounting to 15 per cent. are possible. The general consensus of opinion according to an analysis by the Natural Resources Intelligence Service of the Department of the Interior, at Ottawa, is that a net saving of from 5 to 10 per cent. of fuel may be made in the average house by moistening the air to the proper degree.

### World's Best Lighted Street

A recent survey of the Great White Way shows that Broadway remains the most brilliantly lighted street in the world. Along the line of Broadway below 135th street there are 12,600 electric signs, regularly using more than 1,000,000 lamps. Restaurants lead this list of illuminated business places with 3,000 electric signs.

Station Master (to elderly woman who has just entered first class compartment) — Art you first class, madam?

Woman — "Yes, thank you. How are you?"

W. N. U. 1669

### Prince as a Farmer

Says Knowledge of Chemistry, Botany and Engineering is Necessary

The Prince of Wales in the role of a dirt farmer, told the National Farmer's union meeting in England that knowledge of chemistry, botany and engineering was a necessary part of the modern farmer's equipment.

Speaking at a dinner given by the union the prince announced that he had just acquired a new farm, in addition to the ones he already owns. He said he was studying the business viewpoint, which he regarded as essential for successful farming.

The Short Jacket is Ultra-Smart

Very chic is the separate jacket this season and is decidedly smart when fashioned of velvet, jersey, or fine woollen material. The lower edge is rounded gracefully in front and there is a notched collar, two-piece sleeves finished with cuffs, and set-in pockets. The jacket as shown in both views is No. 1516 and is in sizes 16, 18 years, 28, 40 and 42 inches bust. Size 18 (36 bust) requires 2 1/4 yards 36-inch material, or 1 3/4 yards 54-inch; 2 3/4 yards lining. Price 20 cents the pattern.

The blouse fastens on the left hip and has a long tie or convertible collar which may be worn high or open as illustrated. There are tucks at each shoulder and long sleeves gathered to wrist-bands. The blouse is No. 1399 and is in sizes 34, 36, 38, 40, 42 and 44 inches bust. Size 36 bust requires 3 yards 36-inch material for skirt and 1 yard for camisole-top. Price 20 cents the pattern.

The accordion plaited skirt as shown in View A, is joined to a dart-fitted camisole top. No. 1097 is in sizes 34, 36, 38, 40, 42 and 44 inches bust. Size 36 bust requires 3 yards 36-inch material for skirt and 1 yard for camisole-top. Price 20 cents the pattern.

The skirt in View B, has plaits in front and gathers at the back and is joined to a dart-fitted bodice-top or as inside band at the waist. No. 1191 is in sizes 26, 28, 30, 32 and 34 inches waist. Any size requires 2 1/4 yards 36-inch material, and 1 1/4 yards for bodice-top. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

Coal Merchant: "Did you find any dirt in that bag of coal I sent you?" Customer: "No; but I found a few small pieces of coal in that bag of dirt you sent me."

A man's good deeds are limited, but there is no end to the mischief he can accomplish.

### Vegetable Growing in Far North

Possibilities of Gardening at Fort Vermilion, Alberta

The reports of the experimentalists in charge of the Dominion substations in the far north, just published at Ottawa, are of special interest as showing the possibilities of agriculture in that region. Three varieties of radish sown at Fort Vermilion, Alberta, on April 30 were ready for use early in June. Long White Icicle sown June 6 were ready June 18. They were excellent quality and remained in use until late autumn. Cauliflower is usually a good crop. It is sown under glass about April 24, is transplanted a month later and ready for use in another month.

Cabbage and Brussels sprouts were treated the same way about the same time and were harvested in September. Tomatoes sown in hot beds April 27 and transplanted June 1, were harvested between August 5 and 18. Earliest of All yielded 105 pounds, large in size and of good quality. Bonny Best, Danish Expert, and Earliana were also of good quality. Garden peas sown May 5 were available July 4. Twelve varieties of beans sown May 6 were generally ready a few days after the middle of July. All are reported good and tender only one variety being stringy. Eleven varieties of broad beans sown May 6 were ready for table use August 4, and all of good quality. Onions suffered from the root maggot but the returns of four varieties were good and of two other varieties fair. Sown May 1 to 4 they were generally ready for use around the middle of June. Celery, rhubarb, pumpkins, cucumbers and potatoes all did well. Three varieties of table corn sown July 7 were ready from August 12 to 14 and ran from 34 to 42 inches in height. Howes Alberta Flint was the most prolific.

He (passionately)—I tell you my love for you is making me mad—mad—mad.

She (calmly)—Well, keep quiet about it. It's had the same effect on my father.

### Champion Radio Announcer

"It is quite true, I really had 'stage fright,'" said genial George Wright, explaining that when at the close of the radio show in Vancouver he was offered the cup which signified the fact that he had been elected the most popular broadcasting announcer on the Pacific Coast, he was unable to do more than fairly gasp a half-audible "Thanks." "I found there is a vast difference between talking over the air through a microphone and speaking to a crowd of people present and visible."

Mr. Wright is chief announcer at CNRV, the Canadian National Rail-

## Increasing National Health Results From Abstinence And More Outdoor Exercise

### Success in Canning Foods

Freshness and Celerity in Handling Essential said Expert

"A century and a quarter have elapsed since Nicholas Appert discovered that cooked foods could be preserved in airtight containers. Appert enjoyed an enviable reputation as a chef, gained through his life study of the art of selecting and preparing delicious appetizing foods. In his published works, he speaks of obtaining the best quality, of preserving aroma and states that freshness, celerity in handling and the greatest cleanliness are indispensable for articles that are to be preserved."

### India Leads With Cattle

But Australia Is Sheep Country of the World

British India, with 143,171,000 head of cattle, leads the world in total numbers of this live stock. United States is second with 65,506,000 head; the Union of Socialist Soviet Republics in Europe has 37,716,700; Argentina, 37,061,850; Germany, 17,326,988; France, 14,024,960; Australia, 13,357,598; Great Britain and Ireland, 12,062,623; and Canada, 9,460,836.

Australia is the largest holder of sheep with almost 100,000,000 head. Canada has only 2,681,743 head.

### New Capital for Rumania

Queen Marie in a published interview states that while in the United States she discussed a scheme for building a new capital in place of Bucharest by a United States enterprise. Her wish is to transfer the capital from Bucharest for esthetic reasons and in the national interest. She is said to favor Brasov (Kronstadt) in Transylvania, the geographical centre of Rumania.

It was stated the other day by a medical lecturer that modern man eats less, drinks less, and wears fewer clothes than his ancestors, and that, in consequence, he lives longer and is less frequently vexed by disease while he lives. Not only so, but he is a stranger to many of the diseases with which his ancestors were all too familiar; for example, gout and alcoholic cirrhosis. These two diseases are certainly on the wane — so much so that young medical men know of them chiefly by tradition. The once commonplace spectacle of "middle aged a prisoner to its great toe" is now rare enough to be an object of curiosity. Probably the passing of gluttony as a national vice has accomplished more real benefit than the passing of the tendency to alcoholic excess, though this view is not universally accepted and cannot, for the reason that excessive eating and excessive drinking have declined almost simultaneously, be easily substantiated.

Nor is it easy to discount from the picture of increasing national health the influence of outdoor exercise, the enthusiasm for which, among all classes, has marched side by side with the desire to practice temperance. If, for instance, the gradual disappearance of gout is to be ascribed to the love of frugality, and the gradual disappearance of the once notorious "gin-drinker's liver" to abstinence from ardent spirits, the quite sudden disappearance of anaemia among young girls may properly be ascribed to new and better methods of recreation. These new methods of recreation have to a large extent determined the recent changes in woman's clothing and hairstyles, to which, not unnaturally, has been ascribed and is being ascribed, much of her present day vigor of mind and body. Abstinence and exercise, again, are complementary to one another and proceed from a common impulse—the desire to live grandly. This desire is the basis of the romantic temperament, which, again, finds its sanctions in enthusiasm and faith.—London Times.

### Improving the Herd

What Can be Accomplished in the Building of a Dairy Herd

An illustration of what can be accomplished in building up a dairy herd is provided in the experience of the Experimental Station at Ste. Anne de la Pocatiere, Que. In 1921 the average production of the milk herd was 59,492 lbs. of milk, containing 250.22 lbs. of fat. In 1925 it had increased to 97,751 lbs. of milk, containing almost 500 lbs. of fat.

The increasing average production is due, for the most part, to the observance of fundamental principles of management, which are good feeding for the twelve months of the year; regularity in the hours of milking and feeding; the keeping of milk, fat and feed records; gradual elimination of the poor cows and the replacement of the latter either through the rearing of heifers from record sires and dams or through purchase at an opportune time.

Mr. Ste. Marie the superintendent of the station states in his report that the logical way to get rid of scrub cows is to weigh and test their produce, keep records and turn them out.

### Variety in Collection

Found in a collection taken in St. Patrick's Church, in Soho, London, were two Canadian coins, six American, three Spanish, two French, six Italian, five Belgian, and one German mark. There was also arolley ear pass between Philadelphia and Wilmington, Del. The church, founded in 1792, is the most cosmopolitan of all London churches.

Little Molly and Dolly approached the table on which was a dish of apples, an extra large one on top.

"Is you greedy?" asked Molly, after a longing look at the fruit.

"No," answered Dolly, "I'm not greedy."

"Well," said Molly, "you choose first!"

## WORLD HAPPENINGS BRIEFLY TOLD

An increase in savings deposits in Canadian banks amounts to 54 million dollars.

Major General J. H. O'Brien, who has resigned as chief of staff of Canadian forces, will remain in the service of the Empire.

The right to strike is abolished in Portugal by a decree promulgated by the Camara de Oportu. Dissolution of military units which took part in the recent rebellion is also ordered.

A remarkable coincidence was noted recently in the death of two Brantford, Ont., residents both named Mrs. Caroline Brown, both widows and both 82 years old.

William Turner, 91, of Barnstable, England, has drawn an army pension for 50 years, a postoffice pension for 50 years and an old age pension for 18.

A committee will be appointed shortly to make all necessary arrangements in connection with Canada's diamond jubilee in July next. Premier W. L. Mackenzie King announced in the house.

President Coolidge signed the Leno-Tabor Bill establishing sanitary provisions for the importation of milk into the United States. This new law widely affects importation of milk and dairy products from Canada to the United States.

Hon. Vincent Massey, Canadian Minister to the United States, will receive a salary of \$12,000 a year and will have a staff of nine persons, including secretaries, according to answers filed in the House of Commons.

Canada's national debt decreased by \$3,339,527 in January. The total net debt of the Dominion at January 31 last was \$2,349,933,662, almost an even forty million dollars less than a year ago. The statement was issued by the Department of Finance.

For the oldest inhabitants of Dover a dinner and tea was given in the town hall. Six hundred, all more than 70 years of age, combined ages totalling 16,242 years—attended. More than 700 other old townspeople who were unable to attend received gifts.

A new double violet with exceptionally large petals has been named after Princess Mary of England.

### A Benefactor

A public benefactor is one who helps people to be happy. Such a man was Dr. R. V. Pierce.

It is impossible to be happy if you are suffering—in pain or distress—in ill. To restore health and strength to ailing people was Dr. Pierce's mission. During his lifetime, he gave to the world a priceless herbal remedy in his Favorite Prescription, for restoring the health of weak, nervous, overworked women, and thereby increasing happiness in the home.

As a skilled physician, an honored citizen, Dr. Pierce was known far and near for integrity and fair dealing. His phenomenal success was due to the unquestioned purity of his medicines.

Women in every walk of life today say Dr. Pierce's Favorite Prescription has relieved them of nervousness, weakness and kindred ills. It is a reliable medicine made from roots and herbs, sold by druggists, in both fluid and tablet form. Send for free trial pkg. tablets to Dr. Pierce's Laboratory, Bridgeburg, Ont.

## Made Book a Success

Confusion Over Names Brought Fame to British Author

How a book otherwise destined for failure, because a success owing to confusion in the public mind, is told by Mrs. E. L. Hill, public librarian, Edmonton, who has an autographed letter of R. D. Blackmore, author of "Lorna Doone." Despairing of selling the book, the English publisher shipped the greater part of the edition to the Antipodes in the hope that it might find a market there. Then came a peculiar coincidence. The Marquis of Lorne married the Princess Louise. The names Lorne and Lorna became confused in the public mind and the rumor went abroad that the Marquis of Lorne was in some way connected with the book. Interest was awakened and the demand for "Lorna Doone" became so great that the shipment had to be brought back.

PUT STOMACH IN  
ORDER AT ONCE  
"Pape's Diapepsin" for  
Gas, Indigestion or  
Sour Stomach

Instantly! Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapepsin." The moment it reaches the stomach all sourness, flatulence, heartburn, gases, palpitation and pain disappear. Druggists guarantee each package to correct indigestion at once. End your stomach trouble for free cents.

### Allowed to Fly Naval Flag

Official Church of British Admiralty is St. Martin's, London

With the exception of abbeys and cathedrals, the best-known church in the English-speaking world is probably St. Martin-in-the-Fields, London, to which a new vicar has just been appointed. The parish of St. Martin-in-the-Fields includes Buckingham Palace and St. James' Palace, and it is therefore the parish church of the King and Queen and Prince of Wales. There are in the church two Royal pews and also seats for the use of members of the Royal Household.

The church is not actually used by royalty as the parish church, as both Buckingham Palace and St. James' Palace have chapels of their own but the King and Queen do on occasion attend services.

St. Martin's is recognized as the official church of the admiralty and is thus allowed to fly the naval flag, the White Ensign.

The church during the war earned for itself the title of the church of the "Ever Open Door," as the crypt was kept open at night to house stranded soldiers and others. Even today the crypt is kept open so that wayfarers may have shelter till morning.

## "CASCARETS" FOR BOWELS, STOMACH, HEADACHE, COLDS

Clean your liver and constipated bowels to-night and feel fine

Get a ten-cent box now.

Are you keeping your liver, stomach and bowels clean, pure and fresh with Cascarets or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the constipated waste matter and poison in the bowels.

No odds how sick, headachy, bilious and constipated you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A ten-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children: their little insides need a gentle cleansing, too.

Her father: "Last night I saw Alice sitting in your lap. Don't let it happen again. Understand?"

Jimmy: "Sure; after this we'll turn out the light."

The city council of a city in India has prohibited the killing of mad dogs on the ground that they are the same as human beings and must be put into asylums.

## Could Not Sleep Heart and Nerves Were So Bad

Mr. Geo. Meek, Windsor, Ont., writes: "I suffered with my heart and nerves and could not sleep at night for noises in my head. I managed to keep at my work somehow, until I began to have dizzy spells which got so bad I could not go to my work. I was afraid to go out any place, for very often I would stagger on my feet, and everything in front of me would turn black and fade away. While I was home sick a friend told me to take I got four boxes and by the time I had used them the pains and noises in my head ceased and I was able to get a good night's rest. Although that was six years ago I have never been troubled with that complaint again."

## A Tower of Strength

The Sun Life Assurance Company of Canada, whose annual meeting has just been held, continues to transcend even its own records. This year, it passes the billion and a quarter mark, the total business paid for during the year being double that of 1924—only two years ago. The Sun Life has now more business in force than was held in Canada by all companies, local and foreign, at the outbreak of the war. The increase in new life assurance in the States and Canada last year was 6 per cent. over 1925, while that of the Sun Life was 37 1/2 per cent.

Its assets were increased during the past year by over \$12,000,000, making the aggregate now over \$345,250,000. The Company's assets exceed its total business in force ten years ago. The rate of interest earned on its mean invested assets during the year reached the remarkable figure of 6.69 per cent. Government valuations appraised the increase in the excess of the Company's securities over cost price at over \$7,000,000.

From a total surplus of over \$20,000,000 substantial appropriations have been made to contingency, depreciation, and other accounts. The sum of \$5,371,000 has been added to the undivided profits. The total surplus over liabilities, contingency account and capital stock value is over \$31,000,000. The profits scale to policyholders has doubled in six years. For the seventh consecutive time the Company announces an increase in the scale of profits to policyholders.

The Sun Life Company has long since taken on the proportions of a great national asset, and today it ranks with the first half dozen major financial institutions of the Dominion, and in the forefront of the great insurance companies of the world.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

### Claims Wonderful Discovery

Violinist Has Produced Varnish to Give Strad Tone to Ordinary Violin

Quiroga Losada, the well-known violinist, asserts that he has discovered a varnish which, when applied to the ordinary violin, will produce the same marvelous tonal qualities of a Stradivarius.

"I believe I have brought back to life the magnificent tones of the great master," Losada said.

"After years of research I came to the conclusion that it was in the varnish of the Stradivarius instruments that the secret of the amazing smoothness of sound rested, and I have produced a varnish which I hope soon to give free to the musicians of the world for the benefit of art."

Critics who have listened to instruments after watching him apply the varnish say the effect is almost unbelievable. With not more than thirty-five genuine Stradivarius in existence, Losada's theory and formula, it is declared, are of great importance to music.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Expeller to give relief. Its effects are sure and lasting.

### Convenience for Travellers

To those contemplating a trip overseas, it will be interesting to learn that the Canadian Pacific Railway are operating through tourist sleeping cars from Winnipeg each week to connect with steamers sailing from West Saint John, N.B. Going direct to the ship's side, these cars assure connection and facilitate transfer from train to steamer. Reservations and bookings on these cars may be made with any ticket agent of the Canadian Pacific.

Frau E. von Isacsen, of Vienna, is said to be the first woman who attempted to swim the English channel. She made her first attempt in 1899.

Children suffering from worms soon show the symptoms, and any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient, not only for the eradication of worms, but also as a toner up for children that are run down in consequence.

Experience is a great teacher. It teaches us how to make other kinds of mistakes.

Doctors vouch for Minard's Liniment.

## Don't Neglect Bronchial Colds

Pneumonia, "Flu" and other dangerous maladies develop from common colds. To prevent trouble take Buckley's Mixture. It quickly relieves the Cough and removes the cause. Different from old-fashioned syrups. It's a scientific combination of proven virtues. Sold by all druggists and guaranteed.

## SUNDAY SCHOOL LESSON

FEBRUARY 27

### MAKING THE COMMUNITY CHRISTIAN (TEMPERANCE LESSON)

Golden Text: Have no fellowship with the unfruitful works of darkness, but rather even reprove them.—Ephesians 5:11.

Lesson: Galatians 5:13-25.

Devotional Reading: Ephesians 6:10-20.

### Explanations and Comments

1. Christian Freedom. Verses 13-15.—"Brothers," wrote Paul to the Galatians, "you are free from the Law but Christian liberty does not mean that you can do as you please."

"A Christian man is the most free lord of all, and subject to none; a Christian man is the most dutiful servant of all, and subject to all."—Martin Luther.

Liberty and license are not synonymous. Do not use your freedom as a license for indulging your lower impulses, but live in accordance with the law of love. "Flesh" is used here for "that element of man's nature which is opposed to goodness and makes for evil. It signifies the entire potency of sin." "Through loving service for others," continued Paul, "you fulfil the whole divine law, which is, Thou shalt love thy neighbor as thyself." Paul here quotes Lev. 19:18.

"The freedom of the gospel consists in slavery to the law of love. The emergence from bondage through Christ is the passing into a sphere of life in which all the power should act under the dominion of the true motive—love."—G. Campbell Morgan.

Then remembering that the Galatians were prone to quarrel, Paul adds, "But if ye bite and devour one another—ag toward one another like dogs or wild beasts—beware lest you destroy one another." "Mutual back-biting and hatred can only end in the destruction of one another's spiritual life."

Where two people quarrel both are at fault. "How do you keep yourself from being involved in the quarrels?" a member of a contentious church was asked. "By letting the angry person have all the quarrel to himself," was the reply.

## LOGGERS

Will find Minard's Liniment invaluable in the woods. Good for sprains, bruises, and for coughs and colds.

BOUGHEN NURSERY, Valley River, Man., 156 miles North of International Boundary, offers home-grown fruit trees grafted on hardiest home-grown roots. Varieties recommended by Experimented Farms. ## RESOLUTION ASKS FOR LOW RATES ON ALBERTA COAL

Ottawa.—A national policy by which Ontario and other parts of Central Canada will be supplied with Canadian coal was discussed in the House of Commons on a resolution proposed by T. L. Church (Conservative, Toronto Northwest).

Mr. Church's resolution asked for lower rates on Alberta coal and a duty against coal from the United States, "to insure an all-British supply for Canada, and afford adequate protection for coal mines."

Mr. Church said the present Canadian coal policy was ready-made and pro-American and blamed the directors of the Canadian National Railways for the fact that most of the coal used in Ontario comes from United States mines.

"I am surprised, Mr. Speaker, that you have not ruled this motion out of order, as the question is before the railway commission. Is this a free Parliament or is it not?" Mr. Church asked, and proceeded to emphasize what he claimed was the desire of the people of Canada to deal speedily with this question of coal supply. "I am not criticizing Sir Henry Thornton personally," said Mr. Church, "but the east country that allows this thing to go on."

The rate of \$9 a ton offered by the railways for bringing Alberta coal to Ontario, did not meet the need. It must be lower than that.

"You will never make any headway on this question as long as the present directors of the C.N.R. are handling it," Mr. Church said, "or the present minister of railways." He said the reference to the railway commission was made a year ago, and the indications were that there would be no decision from it in time for any movement of coal next summer.

Hon. Charles Stewart, minister of Interior, said the coal question had been receiving considerable thought and study on the part of the Government.

Mr. Stewart read at some length from a report of the fuel board on the entire fuel situation of Canada. At the conclusion, Mr. Stewart pointed out that the Government was actually developing a real fuel policy which had reduced the importations of American coal by 2,000,000 tons a year since 1923.

## General Rates Higher In East

West Favored in This Respect Says C.P.R. Man

Ottawa.—A comparison between rates and conditions in Eastern and Western Canada was dealt with specially on the railway rate case before the railway commission by George Stephen, assistant freight traffic manager of the C.P.R.

In the West, said Mr. Stephen, grain rates to Fort William were by far the lowest in the world. In the East grain rates, except those on Western grain moving for export, were much higher than those in the West. Livestock enjoyed a basis of rates in both territories which was lower relatively than that applied to any other class of freight.

In the East, he said, it had been found necessary to give special consideration to manufactured products and merchandise and numerous rates had been put in for the purpose of fostering industry and meeting market competition. Going into particulars, he stated that the class rates in the East were as high as or higher than the class rates in the West up to distances of about 100 miles beyond which the western rates were for the most part higher, though on some classes western rates were lower even up to 200 miles. For example, the sixth class rate which applies to agricultural implements and was therefore very important in the West was, in the West, equal to or less than that in the East up to 100 miles.

Consequently, Turkish official organs say a treaty prolonging the present commercial agreement between Turkey and the U.S. will be signed shortly.

## May Reduce Cattle Rates to Britain

Possible in Near Future Says Deputy Minister of Agriculture

Winnipeg.—A reduction in ocean freight rates in cattle shipments to the British Isles looms as a possibility in the near future, Dr. J. H. Grisdale, Deputy Minister of Agriculture, stated in an address here before the Western Livestock Union. Dr. Grisdale declares that, as the result of a recent conference with officials of the various steamship lines, an understanding has been reached that the question of reduced rates would be fully considered.

Any downward readjustment, he asserted, would depend upon the recommendations of steamship representatives in the Dominion. If a \$5 reduction could be obtained it would mean the difference between a profit or an actual loss on shipments of Canadian cattle.

While stressing the importance of enlarging the home market for Canadian farm produce every effort should be made to cultivate and extend trade with Great Britain, Dr. J. H. Grisdale said.

"I do not look for any wild rush of United States legislators to lower the tariff bars against our products. On the other hand, I believe Britain is in a position to take all the surplus Canada can produce, providing the quality is there," he added.

The attitude of British traders toward Canadian beef was becoming more favorable each year. Experience was teaching them that Canadian stock cattle was of a high standard. The shipper on this side, however, did not appear to be availing himself of the opportunity as statistics showed that only 50,000 head had been shipped to Britain in 1926, compared with 635,000 head from Ireland.

## France Refuses to Attend Conference

Will Not Take Part in U.S. Parley on Disarmament

Washington.—Hopes of the Washington government for an effective naval limitation conference have been jolted severely by a polite rejection from France and a forecast that Italy also will decline to participate. With the declaration of France the opinion here was that Italy would accept and still make possible the gathering of representatives of sufficient number of nations to bring practical results in the timing of armaments not touched upon at the Washington conference.

A semi-official communique issued in Rome, however, announced that Italy would follow the lead of France in denouncing the proposal of President Coolidge for the conference leaving as a matter of conjecture the next step of the United States Government in seeking methods of obtaining the agreements which is hoped for.

Tentative consideration had been given to a possible four-power conference participated in by the United States, Japan, Italy and Great Britain even before the unfavorable French reply was received. Acceptance of the Coolidge invitation were considered as having been assured from Japan and Great Britain, but obviously the attitude of Great Britain may now be affected by the position of France and Italy.

For the moment it is unlikely that any plan of further action will be formulated here in the advance of the British and Japanese formal replies.

## Passenger Held Liable

Seattle.—Holding that a passenger in an automobile which fatally injures any persons is as much to blame as the driver of the car, Judge A. W. Hawkins sentenced Mrs. Christine Hopkins to from one to 20 years in state penitentiary. She was convicted of manslaughter on charges resulting from the death of Lois Ames, 11. The driver of the car disappeared.

## Fog Delays Belgian Rulers

London.—Clearing of the fog enabled the King and Queen of the Belgians to make a delayed departure for home via Dover. They had hoped to fly back, but conditions prevented. The royal visitors came to London to attend the Flemish picture exhibition. They declared they had enjoyed their visit despite the unfavorable weather.

## REVENUE FROM FREIGHT BETTER ON THE PRAIRIES

Ottawa. Reasons for the passage of a great amount of Canadian grain from the Canadian west to the Atlantic ports over the United States railways and through United States ports, were discussed before the Board of Railway Commissioners investigating freight rates.

The discussion arose during the examination of George Stephen, assistant freight traffic manager of the Canadian Pacific Railway. Commissioner Oliver, who called attention to the quantity of grain being shipped via the United States, termed the situation a "very serious national problem."

Counsel for the C.P.R. contended that the movement of grain within Canada had greatly increased during the period of open navigation and counsel for the Maritime Provinces added that the available ocean tonnage was the deciding factor. Exporters took their grain to the port where facilities were ready to receive it.

Mr. Stephen pointed out certain characteristics of the freight business in British Columbia. One of the most important of these was the large percentage of the territory which was absolutely non-traffic producing.

This was accounted for by mountainous conditions and by the fact that at least 53 per cent. of the population resided in seaboard cities. He compared this with the condition in the prairie provinces where the population was well distributed, the latest census figures indicating that the rural population of Manitoba was 56 per cent. of the total. In Saskatchewan the rural population comprised 70.5 per cent. of the total and in Alberta 61.7 per cent. This meant that in the prairie provinces the distribution of freight was evenly placed and there were no barren stretches such as existed in British Columbia.

## Iron Deposits in Italy

Rome.—Iron deposits found near Leghorn may prove to be of such size that Italy can rank with England and Germany in industrial power. The country has no iron now and has been importing all the metal used.

## Lepers in New York

New York.—There are twenty-one lepers at large in New York city, Dr. Louis Harris, health commissioner said. These cases are under surveillance always and are not capable of transmitting the disease he added.

Canadian Wolves Feature U.S. Exhibit

Timber wolves are the latest recruits to the rank of the Chateau Frontenac Dog team at Quebec City, Arthur Beauvais, driver of the team, caught the three cubs in the wilds of Ontario and after much patience has subdued their wild natures enough to let them run with the huskie dogs. The wolves are only a few months old and beautiful specimens, sleek and alert with the shifty cunning look of their kind.

The photograph shows Douglas Hains, of the tourist department

## Planning New Building

Government Needs Seven to House Federal Departments in Ottawa

Ottawa.—Heralded in local newspapers as marking the commencement in a pretentious scheme of Federal Government structures on Wellington street, the thoroughfare fronting the parliament buildings and known as Federal Row, an item of \$500,000 for "new departmental buildings" was contained in the estimates tabled by the minister of finance.

The Citizen says in this connection, that seven buildings in all with an estimated value of \$15,000,000 are to be erected to house federal departments in the capital, but that only one is to be built at present. The cost of this first structure is estimated at \$2,500,000 and erection is expected to be commenced shortly, the \$500,000 item already tabled being considered sufficient to meet any expenditure this year.

Plans of the buildings, its size and the departments to have their headquarters therein must await consideration of the cabinet council.

## Fewer Wage-Earners

Only Four Out of Ten Work for Living in U.S., is Report

New York. Less than four out of ten persons in the United States in 1925, were working for a living, according to a study made public by the National Industrial Conference Board.

A decline in the number of gainfully-occupied persons in proportion to total population in the United States between 1910 and 1920, and a further 1920 and 1925, are reported. Relatively larger school and college enrolments and changes in immigration are credited with being among the chief factors in producing the trend.

## Reform of Senate

New Members Will Give Support to Move in This Direction

Ottawa.—All Canadian senators appointed during the past two years have given an assurance of support of such measure of Senate reform, in conformity with the requirement of the constitution, as may be introduced by the Liberal administration. This declaration is given in an answer tabled by the Government in the House in reply to a question by John Evans (Progressive, Rosetown).

## Home Bank Creditors

Ottawa.—The sum of \$222,000 of the \$3,000,000 voted by Parliament for the relief of Home Bank creditors, remains unpaid because certain claims have not yet been dealt with by the commissioners, according to a Government answer to questions in the House of Commons this afternoon.

## THE QUESTION OF ALTA. RESOURCES NOW SUB JUDICE

Ottawa. Discussion of Alberta natural resources was ruled out of order in the House. The point taken was that under the reference to the Supreme Court, which is to be heard in March, the question was sub judice.

T. L. Church, Conservative, North West Toronto, appealed against the ruling, but could not find a seconder. Mr. Church first gave the name of Mr. McGregor, South York, as his seconder.

"No," said Mr. McGregor. "I ask any of the Toronto members to second my motion," Mr. Church went on. "I ask Mr. Matthews or Mr. Anderson (two Toronto members) to second it."

But no one seconded Mr. Church's appeal and it went by the boards.

The question arose on two separate motions. First, Dr. Edwards, Frontenac Addington, had a motion that natural resources should be transferred to the prairie provinces at the earliest possible moment.

At the outset, Speaker Lacombe questioned whether the motion was in order in view of the reference to the Supreme Court and opened the way for discussion of the point by the House. Discussion proceeded and eventually the motion was ruled out of order. Then Mr. Church endeavored to move another motion of his own on Alberta natural resources.

He argued that his motion was different from that of Dr. Edwards. But the Speaker ruled the Church motion out of order likewise. Then came Mr. Church's appeal and his failure to find a seconder.

The Edwards motion came first before the House.

In opening the discussion, Speaker Lacombe pointed to the reference in the Alberta bill now before the Supreme Court and said in his opinion the question was sub judice. However, he would ask advice of the House as to whether this motion was in order.

Dr. Edwards explained that the question referred to the Supreme Court was whether section 47 of the Alberta act was ultra vires of the Dominion Parliament. That referred to Alberta alone, whereas his resolution applies to all the prairie provinces. This very decided difference, he contended, made his resolution in order.

Hon. Ernest Lapointe, Minister of Justice, declared the matter could not be debated on the grounds that it was a matter now before the Supreme Court.

## Prescription Sent By Radio

Directions Given by Surgeon Saved Sailor's Eyesight

New York. How radio directions for the manufacture and use of an electric magnet saved the eyesight of a sailor several hundred miles at sea is related here. Particles of iron that had penetrated the iris of the right eye of Peter Krut, a seaman on the American Diamond Line freighter Tondyva, were removed by use of a soft iron bar enclosed by a coil of wire and charged with electricity from the ship's radio set. The prescription was flashed by an eye surgeon on another ship.

## Department of S.C.R. Report

Ottawa. The Department of Soldiers Civil Re-establishment spent \$51,003,158 in the last fiscal year, according to the department's report tabled in the House of Commons by Hon. Dr. J. H. King, the minister. There was a reduction of 432 in the number of patients receiving treatment from the previous year, the total being 3,997.

## Safety in Air Trade

London. "London streets are far too dangerous so I'm selling my taxi and going into the air taxi business," says Harold Solomon, who is studying aviation.

## No Duty on Used Pianos

Ottawa. A duty is not being levied under the Anti-Smuggling Act on used pianos entering Canada, according to a reply to a question by John Miller tabled in the House.

**The Carbon Chronicle**

E. J. ROULEAU, Publisher  
Printed every Thursday at Carbon, Alta.  
\$2.00 a year

**WHAT ARE OUR  
HIGHWAYS FOR?**

Complaints have been made by some of our worthy farmers of different people of the neighborhood dumping rubbish along the public highway. This was probably done absent minded by the offender, nevertheless, the effect on the minds of the travelling public is the same. People do not want to travel along roads that are littered up with rubbish, and the roads around Carbon are bad enough without making them more of an eye sore than they are. If you have any rubbish to dispose of, put it in a pile and burn it or anything else to get it out of the way. But don't, for the good of our district, litter up our highways with rubbish.

**COUNTRY MERCHANT  
IS INDISPENSABLE**

If it is good business and sound economics for a portion of the community to send to a distant city for a portion of the merchandise they require, then it follows as a logical conclusion that it would be better business if all the people bought all their requirements that way. The inevitable result of such a course would be that there would no towns and villages throughout Canada—just half a dozen big cities from which everyone would obtain every form of merchandise.

It would of course be absurd to suggest that such a development

would be desirable or in the best interests of either the country as a whole or of the people who make it a practice of sending their money to mail order houses. It doesn't require much imagination to conceive the inconvenience and even downright hardship which would be experienced by even the most prosperous people on the farms, if there were no small towns. While some larger cities are necessary, it is the country towns, not the big cities, which are the backbone of Western Canada. And it is the merchants that make a town. Without the local stores, and other businesses that follow them, there would be no town. And without towns it would be hardly possible to maintain existence on the farms. It is therefore to the obvious advantage of all farm and town dwellers to do everything possible to encourage the development of efficient and prosperous local stores. Every order sent to a distant city is an effort in the opposite direction. Yet it is always the patrons of the mail order house who have the most fault to find with the local stores.

Peking, China.—Over 400 passengers aboard the Canadian Pacific Empress of Scotland, now on a tour of the world, the largest number of foreigners, except the military, ever to invade the city, were admitted recently to the Forbidden City for the first time since the young Emperor of China evacuated it, when he was driven out to Tientsin, two years ago. The Manchuria War Lord Marshal Chang Tso Lin accorded safe convoy to the party and every courtesy was shown to the visitors in their tour through a city which so far has been rigorously shut off from intercourse with the western world.

The task of beautifying the lines of the Canadian Pacific Railway across the Dominion is increasing to a great extent each year. The importance of horticultural work in all its branches has been realized and according to plans, recently formulated by the Floral Committee of the Canadian Pacific, the work will be greatly extended next spring. Already 1500 parks and station gardens have been constructed along the lines. "The Floral Route to the West" is the name by which the Company's garden system is known. Years ago John Caesar became station master at Markdale, Ontario, one of the first stations to be officially opened by the C.P.R., after taking over the Toronto and Bruce Railway. His love of flowers prompted him to plant a little garden at his station. From this evolved a three thousand mile route of blossoms.

One of the problems with which the Floral Committee have to contend is the great difference in climatic conditions of the sections through which the lines run. It has been found that the Iceland poppy will grow in profusion at Lake Louise and today the Iceland Poppy at this famous mountain resort is known the world over. On the route from North Bay to Fort William the country is very rugged and the winters severe. Here it has been found that the pansy plant, which is biennial, is most suited to the climate. Thousands of these plants have been placed along the lines in this section each year. Red Rambler Roses have taken a prominent

Alberta, formerly 100 per cent. straight wheat farming country, has changed radically in this respect in the last fifteen years. The wheat yield of 1926 represented only 45 per cent. of the value of the agricultural products, which totaled \$264,000,000 for the year, the greatest in the history of the province.

**"The Floral Route to the West"**

Gardens and Fountain at C.P.R. Station, Kenora, Ont.

Station Garden at Montreal West, Que.

place of late as they bloom all summer and require little attention. In fact, a careful study of climatic and soil conditions is being made by the Floral Department of the Canadian Pacific. The interest in the work taken by the employees of the Company is manifest in the wealth of beauty to be seen at the stations on the lines across the Dominion. The beauty of many C.P.R. stations have been an inspiration to many townspeople to beautify and improve the appearance of their homes.

Each year cash prizes are given to the station masters producing the best results, which has a stimulating effect on enthusiasm. However, it is not always the finest gardens that are awarded the prizes. Many features are considered in judging them, such as the form of layout, quality of the soil and the quantity of personal labor involved in obtaining the results.

When the Canadian Pacific steamship Montroyal docked recently at New York, after completing her first cruise to the West Indies of the year, she resembled a floating menagerie, for there were assembled on board over 200 love birds, parrots and monkeys. These pets were bought by passengers on the cruise. During the month's cruise the vessel touched at fourteen ocean ports and visited thirteen countries.

Sweeping reduction in the rates of electricity to all sorts of consumers has been announced by a leading electrical company in New Brunswick. The new rates are being filed with the New Brunswick Board of Public Utilities. Under the new schedule of rates the household will be able to secure electricity for as low as 3 cents a kilowatt hour, the same rates applying to stores and offices.

Good seed cars, under the joint directors of the Manitoba Department of Agriculture, the Dominion Seed Branch and the Manitoba Agricultural College, in conjunction with the Canadian Pacific Railway, are touring the province. The train consists of a lecture car, a baggage car with types of all modern farming mills and other machines; a horticultural car which is the first to be operated in Canada. Lectures and demonstrations are given at each stop.

Emile St. Goddard, youthful Manitoba dog musher from The Pas, carried off the honors in the Eastern International 120-mile dog derby at Quebec recently. St. Goddard's time for the three-day race was 11 hours and 37 minutes, over 54 minutes faster than the previous record for the same event. He nosed out Leonard Seppala, hero of the Nome, Alaska, serum epic by 20 minutes and 20 seconds. George Chevreton took third place, while "Paddy" Nolan, 15-year-old musher, maintained fourth place throughout the race.

The flow of settlers into western Canada for 1927 commenced in earnest recently when two special Canadian Pacific trains brought more than 400 persons into Winnipeg. About 200 of the new arrivals were destined for Manitoba; 100 to Saskatchewan, while Alberta and British Columbia absorbed the rest about equally.

The value of building and construction contracts awarded in Canada in 1926 was \$372,947,000, compared with \$297,973,000 in 1925, an increase of 25 per cent. Last year's total was the highest for several years. Development in the mining, power and paper industries in Canada was an important factor contributing to the activity in building during the past year.

#### CHAPTER XXVIII.—Continued

Lady Weymouth, a slightly, ecstatic young woman of that English sort which possesses two distinct characters, the one that shows and the one that is hidden, often as opposite as the poles, greeted Joanna effusively when the girl reached the villa verandas where the visitor had chosen to wait. Joanna was fond of Teddy Dorninister's sister, but it was a shy fondness she never quite revealed. Betty Weymouth was different, some way, from others of the crowd that flitted from villa to villa, that shone resplendent with its jewels and its velvet backs at the Casino, opera, or rode, in pairs, through the quiet lanes that wandered back from the main roads by the sea. She professed, openly, to be ever at the verge of indiscretion; but one was quietly confident that she never was. She was barely thirty, but repeatedly announced that she was in imminent danger of being arrested or being fined, or something like that, for having deliberately lopped off two years from her birth certificate. "One must knock off at least a year with every body," she liked to declare, "and I've already got two." She was desperately unconscious of any attractiveness of worthwhileness upon the part of the earl, her brother, but often sat and talked with him for an hour at a time. Which is seldom the way between brothers of the Teddy Dorninister type and sisters of the Betty Weymouth kind. Joanna would have liked to have Lady Weymouth realize how fond she was of her, but was ever afraid Betty Weymouth would not take such appreciation seriously.

"I am all eagerness to know about your fate," the visitor said at once, "for that is all I hear whispered about. It's terribly exciting, you know, to be doing something that is whispered about. I've been trying ever since I came down from London to get someone to drop their voices about me, but they won't. I put on a scandalous affair with Michael, that night you were with us at the Opera, when you presented Mr. Wilmore, but I've never heard an echo. You're so fortunate! The night before you took

### Radio Beacon Successful

Directed Course of Airplane on Night Trip

Successfully completing an experiment with radio beacons a Stout-Ford three-motored plane landed at Detroit, Mich., after a flight to Dayton and return during which it was guided every foot of the route by directions received by radio. The flight was said to have been the first in history of aviation in which a plane has been guided perfectly by radio from separate fields, with the messages being tabulated in co-ordination.

It also marked the first use of the radio beacon for commercial aviation. The beacon is a device by which flights are guided from the landing and starting fields by messages written in radio dots and dashes on a chart in the cockpit of the plane. The pilot was kept informed of his course by the information on his chart, the slightest deviation being registered.

### Dressing Children no Problem Now!

It doesn't cost much to keep the youngsters dressed in all the pretty colors of the season. Buy less, sew less—and Diamond dye their dresses, waists, blouses, etc.

Home dyeing is easy. It's lots of fun. The results are perfect, when you use real dye. Right over other colors, any kind of material, in an hour's time! Keep your own clothes in style, too, by making them the newest shades. Also, the drapes and hangings in your home.

**FREE** for the asking, at any drug-store: the Diamond Dye Encyclopedia, full of suggestions, with easy directions. See actual piece-goods color samples. Or write for free illustrated book Color Craft to DIAMOND DYES, Dept. N10, Windsor, Ontario.

camphor jade. "How gorgeous," Lady Betty cried. "Trust Roddy Kenilworth to search the ends of the earth to save the whims of his lady loves."

She was instantly mindful of that slip of the plural—his lady loves. And, being an English woman, she was never at a loss to turn her own slips into an advantage.

"I'm sorry I said that, my dear," she said gently. "But it is just as well, perhaps, because it will open my way. I want to talk to you about the kind of love that is spoken of in the plural." Joanna glanced at her sharply. This was a new Lady Weymouth.

"Or, it may be that it is love that isn't plural I will begin about," Lady Betty went on, after a moment's contemplation of the smoke that curled lazily from her lips. "It's about Teddy, you know. Teddy and you, dear. Teddy's an awful ass, I know, and he's kissed the hem of a thousand garments when he should have stopped at the fingers. But he's always said that no woman is ever approached by a man she doesn't beckon to, and I'm sure he ought to know."

Again she waited to watch the nebulous trail of the smoke wreath that lifted from her cigarette. Joanna's jade and bamboo holder was poised midway between her lips and the table. The brown eyes had become ivory black. Her lids were drawn close, until they shaped into two straight lines. "You mean," she said, "you want me to stop beckoning?"

Lady Betty was so startled that her cigarette slipped from her fingers to the floor. A maid appeared out of her forgotten proximity and recovered it. Lady Betty did not see the hand that held the retrieved tobacco.

"We mustn't make it a skirmish, my dear," she said to the girl who looked her full in the eyes. "I'm not come as a wife with a bargain to propose to her husband's mistress. I'm just Betty Weymouth dropped in to tea to ask her friend, the Golden Girl, if she won't be chummy and generous and let a good chap down—let him down easily, but let him down. He loves you, dear, and he wants you. I've always said that there wasn't a reason in the world any man oughtn't to have any woman he wanted—if she'd let him have her. That's gone for my own brother, too. But he wants you for keeps. That's different, isn't it?"

"Yes, it's different," Joanna agreed. "Women are so free to be had these days, that it's strange any man would want one—for keeps. And you think I'm not the kind he ought to have—in that way?"

Lady Betty smiled, and reached for a new cigarette. "My dear, you are so unexpected," she exclaimed brightly. "One plans a speech, or a sentiment, and you twist it into something that doesn't sound right at all and hurl it back before it's given." She was earnest again. "I mean only that it wouldn't be fair to me, my brother, to our family, and least of all to you, dear girl, if you married Teddy. It would be hell for you, in fact. And, worse than everything

else, it would be hell for him. I love my brother, Joanna. He's a good sort. Throw him over, won't you, like a good girl?"

"Really, you know, I've never taken him on," Joanna reminded Lady Betty, and then added: "But I might, most any time. As you say, he's a good sort. And I like him tremendously. He's asked me to marry him, you know, and that's made him fearfully interesting to me. You must tell me why—" She stopped. With her eyes she signalled the maid to serve the brandy and soda. Neither woman spoke while the ice was served and the mixture made. Then Joanna asked:

"Will you tell me why I am not worthy of your brother? He knows me. You don't. You and I are common birds of prey seeking the same game. You hunt in your way, I in mine. Your thrill may be different than mine, but we're women—or, at least, if you are a woman, I'm a girl, which is the same thing. It may, or it may not be, that I shall want Lord Teddy. Why not?"

"A Dorninister always has women," the other woman returned, "and he always puts them aside for a wife. The wife must be clean, and good. Are you both, my dear? You're modern, you know. You're beautiful and lovely, and, I think, honest. But you're all body. I'm all body, too, but I haven't the nerve that you have. You're not ashamed of it. A Dorninister must be ashamed of it. It's a Dorninister convention. Surely I won't have to say any more."

(To Be Continued.)

### Little Helps For This Week

He that loveth not knoweth not God; for God is love.—1 John iv. 8.

God is love saith the Evangelist; and our world of woe and sin is made light and happy only when a love is shining in.

—John Greenleaf Whittier.

Have patience with our loss and pain. Our troubled space of days so small.

We shall not reach our arms in vain. For Love shall save us all.

—Celia Thaxter.

The pressure of a hand, a kiss, the caress of a child, will do more to save sometimes than the wisest argument even rightly understood. Love alone is wisdom; love alone is power. And where love seems to fail, it is where self has stepped between and dulled the potency of its rays.

—George MacDonald.

Game birds are fattened in London Zoological Gardens by using artificial twilight to induce the birds to eat often.

**We Couldn't Do Without It**

**Larcombe Receives Appointment**  
Samuel Larcombe, Birtle, Man., has resigned from the presidency of the Manitoba Agricultural Societies, to become an advisor to the provincial government on agricultural problems.

### MOTHERS PRAISE BABY'S OWN TABLETS

Mrs. L. M. Brown, Walton, N.S., says: "I cannot recommend Baby's Own Tablets too highly. I have found them invaluable for the ailments of little ones." Mrs. Brown's testimony is the same as that of thousands of other mothers who have used the Tablets. To use them once is a sure guarantee that they will always be kept in the home as long as there are babies or young children to be cared for. The Tablets are a laxative—mild but thorough in action—which never fail to regulate the stomach and bowels; relieve constipation and indigestion; break up colds and simple fevers and make the dreaded teething period easy. In fact you banish all the minor ills from which little ones suffer. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In Hao, an island of French possession in the mid Pacific, rats serve as mediums of exchange, and with a sufficient number a man can buy a wife.

**FOR COLDS**

**WARNING!**  
Beware of Counterfeits  
There is only one genuine "ASPIRIN" tablet. If a tablet is offered as "ASPIRIN" and is not stamped with the "Bayer Cross"—refuse it with contempt—it is not "ASPIRIN" at all! Don't take chances!

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoacetic-acetic Acid Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

### Embarrassing Position Experienced By Bronx Lady

Miss Jeanne Ginsberg, Bronx, N. Y., writes: "I had become accustomed to arising each day with a heavy head, dizzy and bad taste in my mouth. My bowels were frequently clogged and constipated. One day I became so sick to my stomach I had to leave an important job and go home. A friend advised me to take CARTER'S LITTLE LIVER PILLS. I feel greatly relieved since using them and whenever my stomach and head goes bad again I'll certainly know what to do."

CARTER'S LITTLE LIVER PILLS are sugar coated, small, easy to swallow, purely vegetable, and relieve the bowels free from pain. They tonic the system as they are purely vegetable and do not contain Mercury, Calomel or other poisonous drugs.

CARTER'S LITTLE LIVER PILLS, 25c. and 75c. red packages.

## APPLE SAUCE

Spring has Sprung

Men may not be practical, but  
they wouldn't wear knee pants and  
spend their time trying to pull the  
things down over their knees.

Father—You were out after ten  
last night, weren't you young man?  
Son—No, Pop, only one.

She was only a bootlegger's  
daughter, but all the revenue.

Sandy—Hoot mon! If I should  
give ye \$50,000 what would you  
do?

Dougal—I'd count it.

"That ought to shock him," said  
the warden as he shot the switch  
on the electric chair.

A—I wanta thank you for the  
wool socks.

B—Rather pleased, eh?

A—Tickled to death.

How old are you, little girl?

"Seven, sir, going on 'leven."

"Seven, going on eleven? How's  
that?"

"Pa says it's only natural.

"So you were in Paris, eh? How  
did you like the Eiffel tower?"

"Gosh! my eyes never rose more  
than two feet off the ground."

## SIGNS OF SPRING

Mayor McLeod and J. R. E. Co-  
burn giving their windows their an-  
nual cleaning.

More Clydesdales are on the way  
to Canada from Scotland. It is ex-  
pected that the year's imports will  
run to 120, a record since the war.

## IT WILL BE YOUR FAULT IF YOU ARE DELAYED IN SEEDING TIME

Disc Drills Sharpened at Reduced Prices During  
the Winter Months. Bring Them in Now.

I also carry a full line of woodwork.

Prices at Factory, Delivered, C. O. D. basis, freight extra

On the basis of its marvellous beauty and grace, its many mechanical improvements and its remarkable performance, the Most Beautiful Chevrolet in Chevrolet History constitutes the most outstanding automobile value in the low-price field. Among its many re-  
finements are included features which have been regarded heretofore as marks of distinction on the most costly of cars.

New Bodies by Fisher  
New Duco Colors  
New Full-Crown Fenders  
New Design Radiator  
New Bullet-type Lamps  
New Larger Steering Wheel

New Gasoline Gauge  
New A.C. Oil Filter  
New A.C. Air Cleaner  
New Tire Carrier  
New Sliding Seats in Coach  
New Coincidental Steering  
and Ignition Lock

Yet, due to the economies of volume production, occasioned by the phenomenal popular-  
ity of Chevrolet, the Most Beautiful Chevrolet in Chevrolet History is now selling at new  
and EVEN LOWER prices, the lowest for which Chevrolet has ever been sold in Canada.
